INDEX

This index covers the 12 issues of Railway Gazette published between January and December 1989 (Volume 145), together with the two associated yearbooks *Developing Metros 1989* distributed with the June issue and *Developing Railways 1990* which was distributed with the December 1989 issue.
Most entries in this index are classified first by country and then under the railway or metro authority concerned. Entries affecting one or more country are listed under International, which precedes the alphabetical listing of countries.
Separate sections at the end of the index cover Letters to the Editor, Maps, Product News, Publications, and People.

For the convenience of those who do not bind back copies, the table below shows the numbers of pages contained in each issue.
Developing Metros and *Developing Railways* entries are prefixed DM and DR

January	1-60	July	449-522
February	61-124	August	523-594
March	125-200	September	595-686
April	201-280	October	687-754
May	281-360	November	755-846
June	361-448	December	847-934
